The Heears Group.

Everything is now working smoothly in
the Meears group at Park City. The work
of pumping out the shaft commenced several days ago, and it will be kept up until
the mine is free from water, when sinking
will be continued. The little difficulties
between the management have been
smicably settled, and there is no reason
why the Meears should not come to the
front as one who thoroughly understands herself, and in a very convincing
manner she and: "There is work for temperance people so long as there are \$500.000,000 taken from the laboring masses

THE EIGHT-TAILED COMET.

This Year's Comet is a Stunning Sert of a Luminary.

Those of our readers who are up at 4:30 e'clock in the moralng waiting for Tun HERALD are advised that they may put in some of the time looking for the new comet in the constellation Pegasus. The comet in the constellation Pegasus. The comet has even more take than the Liberal party, being possessed of eight. Like the tails of the Liberal party, some of them are not very distinct. Prof. Swift of Nochester, N. Y., who discovered this particular comet, which is called Swift's by right of discovery, says it excels in size and brilliancy ary comet he has ever seen. Since its discovery, however, it has lost half its brilliancy. Its course is now way from the sun, it being nearest that luminary six weeks ago when it was distant a matter of some 94,000,000 miles. When it

came or where's its home, or where it is going the astronomers cannot tell. It travels at the rate of 200 miles per minute, and will have diminished to one-quarter its present size in about a month.

Scrofulous Humor-A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula in the form of white spellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed years. In that time ten av eleven sores ap peared and broke, causing me great pain and suffering. I feared I never should get well.

"Enriy in 1385 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the seres seen decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mig. Co., and since then

HAVE NOT LOST A SINGLE DAT on account of sickness. I believe the disease is expelled from my syalem, I always feel well, am in good spirits and have a good appetite. I am new 27 years of ago and can walk as well as any one, except the one limb is a little shorter than the other, coing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of modicines." WILLIAM A. LEHR, 9 N. Railroad St., Hendallville, Ind.
